Ultra Logistics can provide customized, high quality logistics solutions for all import & export shipping tasks. Whether it be large or small, or come with a high degree of complexity. We can make even the most complex transportation scenario simple and trouble free.

Ultra Logistics can offer a comprehensive range of services including:

- Customized freight solutions at competitive pricing
- Timely alerts and notices
- Local trucking and door-to-door delivery
- Storage and warehouse options
- Custom clearance

We can provide both full container and LCL services to meet your unique needs, ensure suitable space allowance at the most optimal pricing.

Project and Break-Bulk Cargo Services

With a highly experienced team, **Ultra Logistics** Projects Division offers custom-made solutions for the international movement of oversized and heavy cargoes. Our vast knowledge with ships, equipment and heavy cargo handling procedures help us to plan and conduct complex logistics operations for delivering large and heavy cargoes.

Think “Out of The Box”

The term “oversized” is commonly used for anything that cannot be shipped by use of standard containers which is a usual way in terms of shipping variety of goods and commodities. Containers come in certain sizes with limited volume and weight capacity. What you have with a standard container is basically a box that is made of steel. When we speak of oversized cargo on the other hand, it is basically something that will not fit in that box, and for that reason, some other arrangements will have to be made. We, at Projects Division, like to say think “out of the box” for planning those complex logistics arrangements.

Industries

We work with our clients to increase efficiency in their logistics arrangements thus aiming at reducing costs.

Ultra Logistics Projects has been a strong partner to many organizations operating in various industries including chemical, construction, mining and power generation.

Reefer Services

Trust the cool guys

Our dedicated sales and operations team of specialists is trained to handle your sensitive cargo, and provide seamless cold chain transportation for both frozen and chilled commodities... Whatever the commodity, we can provide a temperature-controlled environment for the safe transportation of your cargo.

Industry knowledge

Our partnership with all major shipping lines allows us to offer the best transit services that comply with your products’ shelf life and cold treatment requirements. We offer a complete package of services, including but not limited to, cold storage facilities, customs clearance, FDA, Phytosanitary, Veterinary inspection and clearance, cross-docking, and trucking solutions.

Customer satisfaction

Our ultimate goal is for your cargo to pass all quality controls upon arrival at its final destination, and to always ensure equipment and space availability to our valued customers.

Ultra Logistics offers a full menu of logistics services to help you manage all aspects of your supply chain. We are more than just a reliable NVOCC (Non-Vessel Operating Common Carrier); we act as trusted partners with our clients offering strategic advice and comprehensive services that optimize shipment operations.

Our value-added services include:

Shipper Coordination

Ultra Logistics will coordinate loading arrangements with multiple shippers to ensure a smooth and efficient transition of cargo.

Shipment Planning and Consulting

Prior to your booking, **Ultra Logistics'** staff will provide you with expert advice on the best loading options and shipment methods for your particular undertaking.

DDP Cargo Handling

Ultra Logistics has the experience and skill necessary to complete all Customs entries on your behalf. Our staff is fully versed in INCOTERMS. We carefully shepherd your import cargo through each stage of Customs clearance and delivery, providing timely updates on progress and status until your cargo is delivered to its final destination.

Air Cargo Management

Ultra Logistics can organize and manage air shipments when time-definite delivery of your import or export cargoes is essential. We book air shipments on scheduled flights of major air carriers to ensure safe and timely delivery of your goods.

Our team thrives on helping you **Move Your Business Forward.**

Our relation with our customers is rather a partnership than “just” a business.
